

Thank you for your response, and for all the work you do for the CU community. I have a few clarifications to offer and questions to ask:

3: Can you clarify why request did not find any records? Flock's June 19, 2025 blog post ("Setting the Record Straight: Statement on Flock Network Sharing, Use Cases, and Federal Cooperation") explains that a "network audit" produced by Flock is available to customers. Because Flock is a contractor, audits produced by Flock are a public record. 5 ILCS 140/7(2):

"A public record that is not in the possession of a public body but is in the possession of a party with whom the agency has contracted to perform a governmental function on behalf of the public body, and that directly relates to the governmental function and is not otherwise exempt under this Act, shall be considered a public record of the public body, for purposes of this Act."

4: Which of these files is responsive?

7: What would you like to verify? I am interested in any "ALPR system audits" made by the ALPR System Administrator. Such audits are mandated by name in 41.18.3 "ALPR Administration" A.6.

10: which of these files is responsive? Can you clarify which, if any, were sent to City Council? I understand that the following were sent to the Citizens Review Subcommittee: ALPR June 24-Dec 24 Memo.docx, ALPR Jan 25 - June 25 Memo.docx, ALPR BiannualJune1-Dec312025 PTA (1).pdf, ALPR BiannualJune1-Dec312025 PTA.pdf.
